Huda Arabia Contracting Co

"Quality Beyond Expectation"

Construction, Operations & Maintenance

About

Huda Arabia Contracting Co.

A Specialized Contracting Company established in the Kingdom of Saudi Arabia since 2016.

Huda Arabia Contracting Co was established in Riyadh, Saudi Arabia and quickly gained the reputation of Specialized Contracting Company. We are Specialized in Civil Work Services, Water Proofing, Concrete Repair & Screeding, Flooring System, Epoxy Flooring, Interior Fit out & Finishing Works, Electro Mechanical (MEP) Services, Metal & Steel Work, Chain Link Fence & Sport Ground Construction.

We are fully equipped with technical and engineering management, trained supervisors, skilled manpower, workshop with all machines / tools and other infrastructure required to complete the projects with intelligent direction and skilful execution within a prescribed time frame.

We undertake work at different sectors; Commercial, Corporate Offices, Residential, Health Care, Education, Banks, Entertainment, Hotel & Restaurants & Industrial etc.

We as Huda Arabia Contracting Co. Stand committed for Quality & Time Bound Work.

Why

Huda Arabia Contracting Co.

With a motto to "Quality Beyond Expectation" Huda Arabia Contracting Co. is constantly serving the Construction in the Kingdom by Custom Customer-Centric Solutions Our Solutions answers the customers need. We simply walk in when others walk out, It is one of the many reasons.

Vision

Our VISION is to establish our footprint in the Kingdom as a reliable support Construction company and be the industry leader providing professional services to our customers On Time, On Target and Within Budget

Mission

Our Mission is to provide our clients with timely, cost-effective and comprehensive Construction solutions by integrating the latest in techniques, tools and qualified personnel for global competitiveness.

Founder's Message

Established "Huda Arabia Contracting Co." to assist people with great services in the construction sector, we have the expertise from the industry in our team, who are best in planning and executing the challenging projects within time and budget. We ensure cent percent satisfaction to our every customer by delivering Economic and Quality solutions.

Once I attended a management seminar and remember the comment by one of the consultants! More Often than not, we find it a challenging to put in the words "WHO WE REALY ARE" - I concur with this very moment while writing this Founder's message and let me give this a try.

Our Services

Civil Work Services

Huda Arabia Contracting Co. takes Turnkey projects for all kinds of structures whether new or existing for Renovation. We provide our Civil Work Services from start to final finish.

- Demolition & Renovation
- Excavation work
- Interlocking & Curb Stone
- Concrete Work
- Block Work
- Construction & Asphalting Roads
- Marble & tile works
- Raised Floor System
- Gypsum Board & Panelling
- Building Finishing & Decorations
- Commercial Painting – Indoor & Outdoor
- Parking Shade Installation

Our Services

Concrete Repair & Screeding

Reinforced concrete can be a highly durable structural material requiring little or no maintenance. However, it is recognized that without correct design, mixing, placement and curing, the durability of reinforced concrete may be impaired. Cracks and divisions in the floorings and also on walls is a common spectacle. It should not be much of a worry if one of these appears but when it does, it is best to take the action that is needed, and required at such tricky moments

Factors such as overheating dries the building too fast and hence there is a strong need to repair the cracks that will be formed in the wall. Over damp buildings that are flushed with heavy rain all the time are also to be taken care of, since they get over soft and clay like, and may also show some heavy cracks

There are many different types of concrete repair that can be performed to help prolong the life of the concrete or give it a much-needed face-lift. Just as the uses for concrete vary greatly, so do the types of concrete repairs that can be performed.

There are various types of concrete repairs including restoration, reinforcement, finishing and maintenance. Cleaning and preparing the area is part of most concrete repairs. This can be performed with a variety of chemicals or organic compounds

The old concrete doesn't bond with the new one without a cold joint or weak seal where they meet. We use special chemicals to make the cold joint that is stronger than the original surface which eliminates future cracking and complete waterproofing ability

Our Services

Concrete Repair & Screeding

Carbon Fibre laminates are applied for structural reinforcement of concrete, steel wood and masonry. They are used for repairing the original bearing capacity, local strengthening of structural elements and repair of design or execution errors

As one of the leading concrete repairs and strengthening specialized companies in the kingdom, we have the knowledge and ability to provide the best and effective concrete repair and strengthening solutions to our customers. Huda Arabia Contracting Co. has the expertise in the strengthening, maintenance and repair of concrete structures such as commercial and residential buildings, water tanks, tunnels, foundations, bridges, runways, silos, swimming pools, columns, slabs and beams. The procedures involved in the process include

- Grouting
- Cracks injection
- Carbon Fibre reinforcement
- Columns & beams Jacketing
- Shotcrete
- Rehabilitation of Concrete Structure.
- Refurbishment of Pavements & Floors.
- Concrete Protection.
- Mini Piling.
- Resealing Movement Joints.
- Renovations.
- Strengthening of construction elements.

Huda Arabia Contracting Co. also provides stamp concrete flooring and screed services, we bring experience, innovation, exemplary service to your facilities, our unique approach can be distinguished in the materials, quality, attention to detail and workmanship on each of our completed projects

Our Services

Water Proofing

With an extensive range of designs and products, we have the ability and experience to provide our clients with diverse waterproofing options for concrete roofs, corrugated sheet roofs, bridges, tunnels, basements, wet areas, and other construction elements. In addition to that we provide the best solutions to stop water ingress and control the moisture in concrete by using the appropriate injection techniques and materials such as polyurethane, acrylic, and cementitious injection materials.

Our Services

Water Proofing

Huda Arabia Contracting Co. has the experience in all types of waterproofing systems such as:

- Waterproofing – Bituminous Membrane
- Waterproofing – Cementitious Waterproofing
- Waterproofing – EPDM Membrane System
- Waterproofing – TPO Membrane System
- Waterproofing – PVC Membrane.
- Waterproofing – Crystalline Waterproofing (CPB)
- Waterproofing – Foam System
- Waterproofing – Paint Application
- Polyurethane Coating.
- Polyurea Coating.
- Foam Concrete.
- Firestone Water Proofing Solutions

Our range of waterproofing applications include:

- Foundations
- Basements
- Overhead water tanks
- Sewage Tanks
- Swimming Pools
- Fountains
- Wet Areas
- Roofs
- Terraces
- Podiums
- Landscape Areas
- Decks
- Parking Areas and ramps

Our Services

Flooring System

Huda Arabia Contracting Co also offer a wide range of flooring options to our customers. With increasing demand for quality flooring, we stepped in the market to bridge the gap and serve customers with the best quality and wide range of products.

- Resilient flooring - Vinyl & Rubber Flooring
- Raised / Access flooring
- Wood Flooring - Hardwood flooring, Parquet, laminate flooring.

Our Services

Epoxy Floorings

Huda Arabia Contracting Co. is Best in epoxy flooring solutions provider from perfectly suit floors exposed to heavy equipment traffic and light vehicle traffic like warehouses, machinery workshops and garages. We also specialize in residential epoxy flooring solutions. Being the best epoxy flooring contractors in Saudi Arabia, we provide extremely durable, strong, and chemical resistant flooring solutions. The two components with resin and hardener create a reactive process that cross-links and cures the surface. Epoxy flooring can improve the durability of concrete surfaces and is an affordable alternative for floor maintenance.

Our Services

Epoxy Floorings

Huda Arabia Contracting Co. team of commercial epoxy floor contractors understands the strict guidelines that flooring in your commercial facility must stay within. The types of flooring that have been available in said facilities are typically bland and don't last very long in the harsh environment. With our commercial epoxy flooring systems, your flooring will be durable, attractive, safe, easy to maintain and have many other benefits for your facility. Don't let the times pass you by and use old, ugly and outdated flooring, with our commercial epoxy flooring, the future is now!

Our specialized epoxy flooring services

- Epoxy Floor Coatings
- Epoxy Self-level Coating
- PU Foam Roof Coating
- Polyurethane Coating
- Acrylic & Anti-Carbonation Coatings
- Flooring System Sealers
- Cementitious Self Levelling Flooring System
- Epoxy Flooring System
- Polyurethane Flooring System
- Static Controlled Flooring System
- Vehicle Decking Systems
- Epoxy Repair Products
- Injection Products
- Bituminous Damp & Waterproofing
- Acrylic Waterproofing
- Cementitious Waterproofing
- Polyurethane Waterproofing

Our Services

WHAT IS EPOXY FLOORING?

Epoxy flooring is a type of flooring that is becoming increasingly popular due to its durability, versatility, and aesthetic appeal. It is made by combining two components – a resin and a hardener – which chemically react to form a rigid plastic material. When applied to a concrete substrate, the resulting material forms a strong and durable surface that is resistant to stains, abrasions, and chemicals.

Epoxy flooring is commonly used in industrial and commercial settings, but it is also becoming more popular in residential applications. It can be customized to create a range of decorative finishes, from a simple solid color to a complex multi-coloured pattern.

The process of installing epoxy flooring typically involves preparing the concrete substrate by cleaning and etching the surface to ensure proper adhesion. The epoxy resin and hardener are then mixed together and applied to the surface using a roller or squeegee. Once the material has cured, a topcoat may be applied to further enhance its durability and appearance.

Overall, epoxy flooring offers a durable and versatile flooring option that can be customized to meet the needs of any space. Its high resistance to wear and tear, chemicals, and stains make it a popular choice for both commercial and residential applications.

Our Services

Interior Fit-out & Finishing Works

We are pleased to introduce ourselves as experienced engineering company, specialized in Interior Decorators/furnishers and civil structure with Turnkey project solutions. We undertake the work for multi-location offices, corporate houses, showrooms, residences, farmhouses, restaurants, hotels, industrial & commercial buildings etc.

We assist you with a wide array of interior essentials like furniture, furnishing or any other interior decoration work when it is about providing turnkey solutions to any type of commercial or industrial premises. We offer our services to the following,

- Residential - House Villa & Palaces.
- Corporate
- Commercial
- Retail
- Institutional
- Hospitality
- Interior Refurbishment Services

Market :

- House Decoration
- Villa & Palaces Decoration
- Restaurant & Coffee shop decoration
- Hotel decoration
- Shop Decoration
- Office & Work Area Decoration

Our Services

Electro Mechanical (MEP) Services

We are MEP Contractor using the latest and modern technologies with high standard for being essential key for our client's success. Our aim is to provide the latest and modern technologies with high standard for being essential key for our client's success.

Electromechanical (MEP) provides the following services:

- Underground & Above LV/HV Works
- HVAC - Air-conditioning system – Ducting & piping installation
- Plumbing
- Pump, Generators, Compressors
- Manholes, Septic Tanks
- Lift Stations
- Piping: PTR, FBR, PVC, CS Welding (ARC, Tig.)
- Fire fighting
- Fire Alarm & Sprinkler system Specialty Works:
- Telecommunications Works
- Fibre Optic Cable
- Electrical Works

Electrical Works:

- Lighting fixtures installation
- Lighting design & Load calculation
- Electrical Cabling & piping
- Industrial Electricity
- Building, Offices & Showroom Electrical Design

Our Services

Metal & Steel Work

Metal Works

Metalworking is the process of working with metals to create individual parts, assemblies, or large-scale structures. The term covers a wide range of work from large ships and bridges to precise engine parts and delicate jewellery.

Metalworking is an industry and trade. Producing manageable and ductile metal useful tools and adornments. Modern metalworking processes, though diverse and specialized, can be categorized as forming, cutting, or joining processes, to create useful work piece.

Huda Arabia Contracting Co. applies metal works in constructions industry by the process of transferring a design to a practical element depending on the desired finished product.

Stainless Steel

Stainless steels are iron-base alloys containing %10.5 or more chromium. They have been used for many industrial applications. Currently there are being marketed a number of stainless steels originally recognized by the American Iron and Steel Institute (AISI) as standard alloys. With so many stainless steels from which to choose, selecting the proper stainless steel material selection should meet Design Criteria, Corrosion or Heat Resistance and Mechanical Properties.

Wide range of products Huda Arabia Contracting Co. is manufacturing, we mainly depend on grades 304 ,304L, 316 and 316L.

Products:

- Handrails & Guardrails.
- Stainless Steel Cladding.
- Stainless Steel Skirting.

Our Services

Metal & Steel Work

Mild Steel

Mild steel consists of iron alloyed with less than 0.3 percent carbon, most commonly between 0.1 to 0.25 percent. The building industry frequently uses mild steel in construction because of its ductility and malleability. Depending upon the amount of presence of carbon in the alloy, grades vary from low carbon to very high carbon steel.

Products:

- Stairs.
- Gates and fences.
- Handrails & Guardrails.
- Steel Gratings.
- Ladders.
- Steel Bollards.
- Brackets.

Aluminium

Because of the natural crossover between steel and aluminium in construction industry, Huda Arabia Contracting Co. gladly perform some of the many aluminium applications such as:

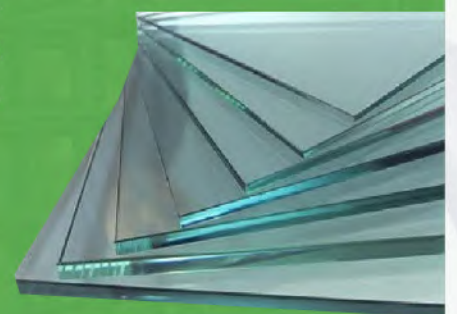

- Louvers
- Aluminium Canopies.
- Aluminium Frames.

Glass

Glass applications exist in every building, which make it impossible not to add it in our field. Therefore, Huda Arabia Contracting Co. has some of glass products including:

- Glass Balustrades.
- Frameless Glass.
- Spider System Glazing.

Our Services

Metal & Steel Work

Steel Structure – The Future of Structure

Steel structure is a metal structure which is made of structural steel elements connect with each other to carry loads and provide full rigidity. Because of the high strength grade of steel, this structure is reliable and requires less raw materials than other types of structure like concrete structure.

In modern construction, steel structure is used for almost every type of structure including heavy industrial buildings, multi-story buildings, equipment support systems, infrastructure, bridges, towers and airport terminals.

Huda Arabia Contracting Co. is specialized company for steel buildings & steel structures fabrication. Services cover design, manufacturing, shipping and erection standard and customized structure. Supply all roof and wall cladding in addition to all accessories needed to erect an entire premises.

Chain Link Fence

Chain link fence is made from hot dip galvanized or PVC coated low carbon steel wire. It comes in a wide range of qualities, colours, sizes and types. Chain link fence is known for its strength and durability and is perhaps the most economical type of fencing available.

Wire:

- Galvanized: 2mm to 4.8mm diameter (special diameter on request).
- PVC: 3mm to 5.9mm diameter (special diameter on request).
- Zinc coating according to ASTM, A392 Class 1 or other international standards on request.
- PVC Extruded or Bonded wire confirming to ASTM F – 668 Class 1 or 2 Specification.

Mesh Size:

- Opening 40mm, 50mm, 60mm, 70mm & 80mm.
- Height: - 0.5m up to 4m maximum.
- PVC Colours: Green, Other colours can be produced for large quantities.
- Roll Size: - 10m, 15m, 20m, 25m.

Posts:

- ASTM A-53 SCH-40 & SCH-80 for heavy duty requirements.
- BS commercial for light weight application.
- Precast concrete posts for Saudi Security Directive Type 1.

Our Services

Chain Link Fence

Accessories:

All accessories and fitting are Galvanized to ASTM A. 123, A153 and BS 729 and confirming to ASTM F626 – Standard specification for fence fittings.

Application:

Residential, Commercial, recreational and industrial fencing.

When you need fast, professional fencing services, Huda Arabia Contracting Co. is here to help, with experienced professionals who can provide complete solution from planning to implementation on any situation.

Our Professional team will analyse your requirement and provide you balancing ornamental steel fence & two varieties of residential aluminium fencing, fencing for your residential patio, and even children playground or ball fields. Whatever fencing need, we have services has a product to suit your budget and lifestyle.

Our Services

Sport Ground Construction

Huda Arabia Contracting Co provides comprehensive range of construction services of sports grounds with natural / artificial turf as per FIFA specifications, that can be tailor made according to project requirements:

- Shaping, Sub Base Preparation, Construction, Subsoil drainage system, Preparation of root zone for turfing and grassing.
- Complete design and installation of automated irrigation system and drainage to the highest international standards.
- On site construction management services through a team of highly experienced architects and engineers.

Our Services

Sport Ground Construction

Huda Arabia Contracting Co. provides construction of Sports Flooring

- Football Ground – Artificial Turf
- IAAF Standard Athletic Running Track
- Basketball Court
- Tennis Court
- Padel Tennis Court
- Volleyball Court
- Multipurpose Court
- Handball Court
- Golf Court
- Hockey Court
- Baseball Court
- GYM Rubber Tiles

Industries and Sectors:

- Commercial & Retails
- Corporate Offices
- Residential
- Health Care & Pharmaceuticals
- Education
- Banks
- Entertainment
- Hotel & Restaurants
- Industrial

Our Services

Management

We are a multidisciplinary team of professionals that work in coordination to channel in the best way in order to position. Consolidate and maintain its corporate image and prestige. We add value for our customers by anticipating and identifying their needs and providing cost-effective solutions and services. They will see us as a leader in the industry. We will provide an environment that challenges our employees to learn, grow and prosper in an atmosphere of respect and recognition. Our employees will be proud to work for a profitable and thriving employee-owned company

Client Philosophy

We understand the need of every client on every project; hence, we provide custom solutions to our every client as per their project demand. We are committed to delivering the best solutions on time to our valuable customers as value for money.

Social Responsibility

It is our responsibility to support Saudi Vision 2030 by hiring and training our Saudi workforce, by strengthening our communities, and by adopting a "Go Green" strategy for sustainability.

Safety Policy

While safety is critical to both the success of our clients' projects and the strength of **Huda Arabia Contracting Co.** Engineer's, is individual worker well-being that drives us. We achieve results by pushing safety and health means and methods well beyond established industry standards.

Zero Accident Policy - We strive to provide safe and healthy working conditions and to establish and insist upon safe practices at all times, by all employees and subcontractors.

Our philosophy is that each and every Incident/accident is preventable. We robustly adhere with all regulations set forth by client and governmental agencies.

We ensure safety cultures by conducting periodic safety awareness meetings and safety trainings for all the project participants

Safety Training

To make certain that every project is conducted as safely as possible, our field engineers and superintendents receive training in the following:

- Confined Space.
- Steel Erection.
- Fall Protection.
- Crane Awareness.
- Excavation.
- First Aid.
- CPR.
- Hazard Communication.
- Infection Control Risk Assessment (healthcare).
- Sediment / Erosion Control.

Safety Planning

Rigorous preconstruction planning is the key to safety on our projects. Our project teams conduct a project hazard assessment to identify normal and extraordinary risk at each stage of the construction process. We communicate this plan to the trade contractors as the basis of their individual safety plans

Procurement Policy

Safety

We focus consistently upholding the highest standards of the Safety; ensuring that all workers and the public go home each and every day.

Quality

We provide outstanding service through our teamwork, experience and accountability and innovation – all of which is reflected in the quality of our results.

Staff

Our People are our success by delivering the customer solutions. Therefore, we strive continually to attract and retain talented professionals who share our values.

Continuous Improvement

We Cultivate and environment that supports and encourages ongoing learning, development and personal growth.

Operational Excellence

We provide the best value to our customers by continuously refining our processes and cost structure.

Self-Perform

Dependent upon the requirements Huda Arabia Contracting Co. is capable of performing a variety of work with our own forces including:

- Structural and miscellaneous steel.
- Concrete forming and placement.
- Foundations.
- Exposed Architectural Facades.
- Clean Room Constructions.
- Renovation / Retrofitting of Old Structures.

All decisions to self-perform work are governed by a mutual agreement with our clients that significant cost, schedule

Environmental Policy

Huda Arabia Contracting Co. as the Engineering and Construction recognizes the impacts of its business operations on the environment due to consumption of resources like energy & water. Hence, it makes continuous efforts to optimize resource efficiency & reduce wastes as well as help customers reduce their environmental footprint.

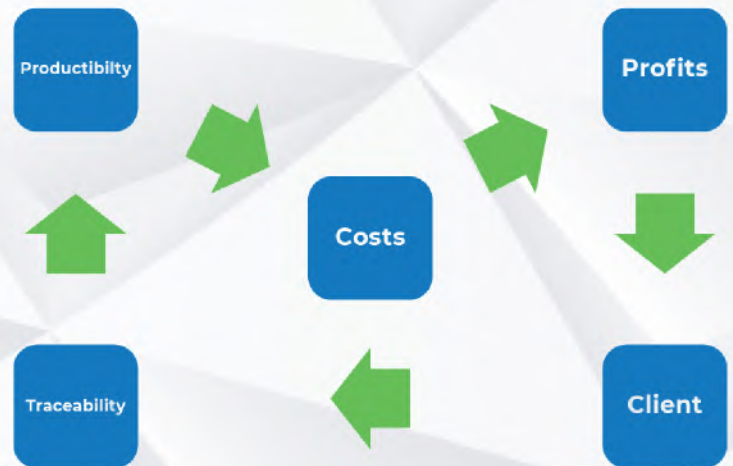

Quality Policy

We, at **Huda Arabia Contracting Co.**, are strongly committed to meet customer requirements and specifications to achieve maximum customer satisfaction with unerring regularity on lasting basis.

We strive for continual improvement in all our processes. We design and construct strong durable and aesthetic civil constructions. We continuously endeavour to maintain high standards of safety, health and environment at different sites.

OBJECTIVES

- To reduce internal rejections/ reworks resulting from customer inspection, by %10 every year.
- To create awareness among all employees through regular training and information sharing on relevant subjects.
- To achieve customer satisfaction by understanding stated and implied needs as well as regulatory requirements prior to entering into contract.
- To aim for continuous improvement in terms on newer technologies, products, methods of construction, material, equipment, time and human resources.
- To engage in ethical and fair business practices.
- To ensure adherence to safety and health policy of the company.

INTEGRATED MANAGEMENT SYSTEM POLICY

The Management & Staff of **Huda Arabia Contracting Co.** are committed to meet clients' needs accurately, correctly by getting it right from the very beginning, and at the right price, in the required time, also to carry out work safely and protecting the environment which consistently satisfies the clients and legal & statutory regulations and participate in continual improvement of the Integrated Management System (IMS).

To achieve the objectives, the Management of **Huda Arabia Contracting Co.** implements an Integrated Management System (IMS) that meets the requirements of ISO 9001:2015 (QMS), ISO 45001:2018 (OHSMS) and ISO 14001:2015 (EMS) Standards. The Management of Huda Arabia Contracting Co. has set the following Quality and HSE System Objectives:

- Consider Context of the Organization and aligning the Integrated Management System with the strategic direction of Huda Arabia Contracting Co.
- Identify and comply with all relevant legislative requirements.
- Develop and utilize an Integrated Management System (IMS) that complies with or exceeds requirements and drives continuous improvement in all areas of our operations and maintenance services.
- Train and develop the competence of our people to the standard required for delivery of first-class operations and maintenance services to clients while demonstrating our commitment to Quality, Health & Safety and Environment (QHSE).
- Ensure efficient sourcing and use of available resources to achieve IMS objectives.
- Develop and continually promote a Quality, HSE Management System awareness culture throughout the organization.
- Provide a safe and healthy working environment for all personnel, including employees, subcontractors, and visitors with a commitment to preventing injury and avoiding ill health.
- Regularly assess the environmental impact of our key processes and cleaning services.
- Ensure Business Continual Improvement by promoting the involvement of staff in all Quality, Health & Safety and Environment (QHSE) related matters

INTEGRATED MANAGEMENT SYSTEM POLICY

It is the objective of **Huda Arabia Contracting Co.** to ensure that the employees work under the safest of conditions. Every reasonable effort is made to keep the job sites safe. Our company is committed to supply the interested parties with the guidance of good supervision and policies on job site.

All workers, contractors and subcontractors must protect health & safety of themselves and others by working in compliance with all applicable legislation, regulations and established safe work practices and procedures.

Huda Arabia Contracting Co. is committed to provide a quality, health & safety and environment program that protects our staff, our property, our customers, the environment and the general public from accidents, injury, and harm. We believe that everyone is entitled to work in a safe and healthy environment.

Employees at every level including Managers, Supervisors and Workers are equally responsible and accountable for QHSE protection. Complete and active participation in QHSE policies by all employees is required every day and, in every job, which is performed anywhere.

Huda Arabia Contracting Co. will always take due care and diligence to ensure that all work activities under our control are conducted in such a manner to contain to a minimum adverse impact on the natural, physical, and biological environment. Bridge Saudi complies with relevant QHSE Laws and establishes responsible standards where no legislation exists.

The ultimate goal of Huda Arabia Contracting Co. is to eliminate:

- Injuries and Work-related incidents and accidents.
- QHSE discrepancies and related non-conformities.
- Workplace absence due to sickness or injury.
- Environmental Impacts & Aspects associated with impairment.
- Loss or damage to company assets.
- Damage to company image & reputation
- Any legal complaints & issues related to Quality, Health & Safety and Environment

Huda Arabia Contracting Co. will review its Quality, Health & Safety and Environmental (IMS) Policy on annual basis to ensure continual growth and knowledge in order to maintain success and conform with customer, regulatory & statutory requirements.
